Reported attacks and deaths from cholera, smallpox, plague and typhus in districts in India and some of the Indian States during the week ending the 19th November, 1949—concl'd.

Explanation of Symbols used :— C=Cases ; D=Deaths.

NEW DELHI 3, (INDIA); }
The 12th December, 1949.

S. P. JAIN,
for Registrar General, India.

NATIONAL SAVINGS CERTIFICATES

Are now available in three different series, maturing after 5, 7 and 12 years. The certificates yield 3%, 3½% and 4-1/6% simple interest respectively, at maturity. The 12 years certificates increase your money by 50% but if necessary can be encashed after 18 months (Rs. 5/- certificates after 12 months). The 5 and 7 years certificates can be encashed at any time.

National Savings Certificates are obtainable in denominations of 5, 10, 50, 100, 500, 1,000 and 5,000 and you can invest upto Rs. 25,000 in them (inclusive of any Post Office cash certificates held).

Full particulars obtainable from all post offices, District Organisers of the Small-Savings Scheme, Assistant National Savings Officers, Provincial National Savings Officers or the National Savings Commissioner. Simla.

TODAY'S SAFEST AND MOST PROFITABLE INVESTMENT

Births and deaths from principal diseases in towns with a population of over 30,000 in the Provinces of India and some of the Indian States for the week ending the 12th November, 1949.

REMARKS

The figures of births and deaths shown in this statement for the week ending the 12th November 1949, relate to 190 towns with an estimated population of 23,780 thousands. The total number of towns is 224 and their population is 27,293 thousands. Thus 85% of the total number of towns representing 87% of the total population is covered in this statement. The numbers of births and deaths recorded in these towns were 19,480 and 10,052 representing birth and death rates of 42·6 and 22·0 per thousand of population respectively.

(A) *Indian Provinces*.—The data here relate to 163 towns with an estimated population of 21,293 thousands. Information for Bihar and Assam could not be included. The total number of towns is 192 and their population is 23,759 thousands. Thus 85% of the total number of towns representing 87% of the total population is covered. The numbers of births and deaths recorded in these towns were 17,721 and 9,153 representing birth and death rates of 43·3 and 22·0 per thousand of population respectively. The table at the end

gives the position by provinces.

The towns of Pandharpur in Bombay, Budaun and Banaras in U. P. and Yeotmal in C. P. recorded high death rates of 73·1, 52·9, 53·2 and 57·0 respectively. In Pandharpur and Budaun, the high death rates were mainly due to deaths from fevers and respiratory diseases. In Banaras and Yeotmal, the high death rates were largely due to deaths from fevers.

(B) *Unions and States*.—The data here relate to 27 towns with an estimated population of 2,487 thousands. The total number of towns is 32 and their population is 3,534 thousands. Thus 84% of the total number of towns representing 70% of the total population is covered. The numbers of births and deaths recorded in these towns were 1,739 and 899 representing birth and death rates of 36·4 and 18·8 per thousand of population respectively. No town recorded a high death rate of 50 or over per thousand of population.
